

Individual and flexible

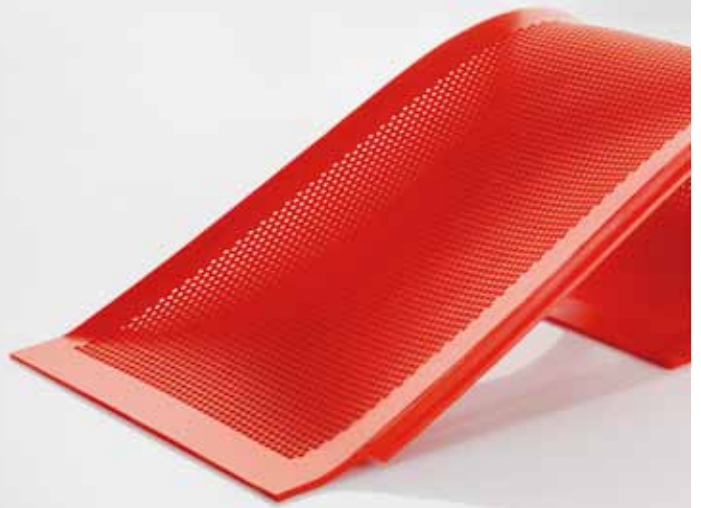

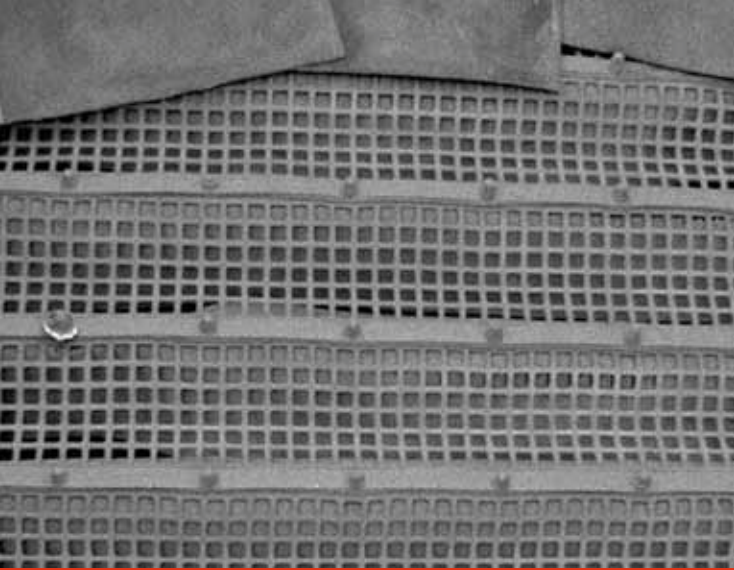

A LARGE VARIETY OF MATERIALS FOR A WIDE RANGE OF APPLICATIONS.

Screen mats for Flipflow screen machines

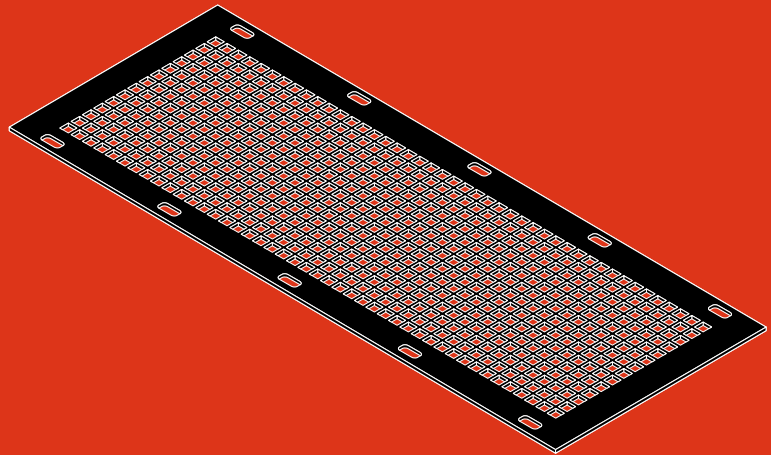

We supply screen mats made of KÜPRENE, Vulkollan® and GIGANT. Depending on the application, these are either punched or produced in moulds and are available either as a rubber mat with fabric reinforcement or without reinforcement. Screen mats are used in Flipflow screen machines in the recycling and wood industry, as well as in quarries and for dry sizing in gravel pits.

Functions

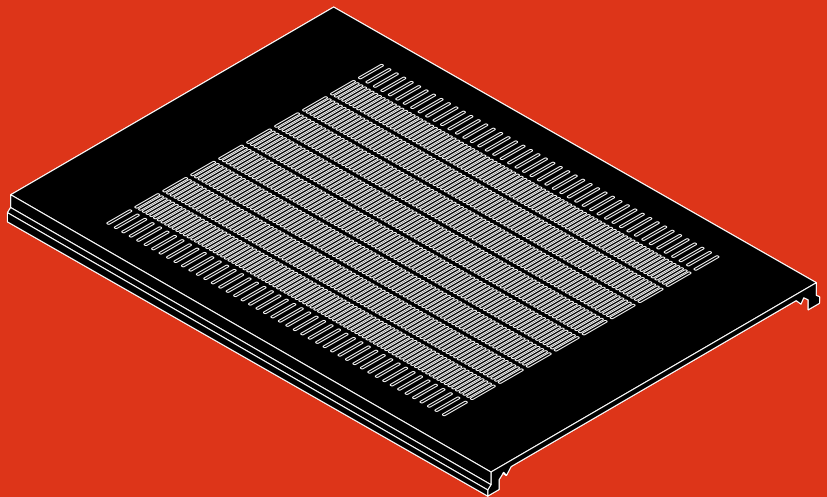

- Available in the materials polyurethane, Vulkollan® and GIGANT rubber
- Used in the recycling and wood industry, quarries and gravel pits
- For all types of Flipflow screen machines
- Wide variety of polyurethanes in various hardnesses, for different applications
